Date of birth 11/04/1990 | Nationality Spanish | Gender Female

SUMMARY OF ACADEMIC  
AND SCIENTIFIC  
BACKGROUND

Dr Mireia Valles-Colomer is currently an EMBO postdoctoral researcher in CIBIO (University of Trento, Italy). With a background in Microbiology and Computational Biology (Autonomous University of Barcelona, Spain and Free University of Brussels, Belgium), her research focuses on the role of the human microbiome in mental health and the person-to-person transmission of microorganisms. As part of her PhD research (VIB-KU Leuven, Belgium) she sought to characterise the microbial production and degradation of neuroactive compounds in metagenomic data, and performed the first population-level study on the link between the gut microbiome and host anxiety and depression (Valles-Colomer et al, Nat. Microbiology 2019). The study was included in "Nature milestones 2019" as milestone paper in human microbiota research, and was awarded a recommendation from F1000Prime. As part of her postdoctoral research she is investigating the person-to-person transmission landscape of the gut and oral microbiomes (Valles-Colomer et al, Nat. Microbiology 2022; Valles-Colomer et al, Nature (accepted for publication)).

## EDUCATION AND TRAINING

September 2014 – June 2019

**PhD Biomedical Sciences – KU Leuven-VIB (Belgium)**

Promotor: Prof Dr Jeroen Raes; Co-promotors: Dr Sara Vieira-Silva & Prof Dr Marie Jossens

Title: "Assessment of the neuroactive potential of the gut microbiota in quality of life and depression"

Analysis of shotgun and 16S metagenomic datasets, wet lab protocols (DNA extraction and sequencing library preparation, (q)PCR, flow cytometry), numerical ecology, multivariate statistics, compositional data analysis, notions of machine learning.

September 2012 - July 2014

**MSc Biomolecular Sciences – VUB (Belgium)**

Training in Molecular Microbiology, Molecular Biology, Structural Biology, Biocatalysis, Biostatistics, Bioinformatics and omics (R, Python, Bash).

Grade: Greatest distinction (85%)

Master thesis: "Development of a fast and cost-effective qPCR-based human gut microbiome monitoring assay"; Promotor: Prof Dr Jeroen Raes; Supervisor: Dr Karoline Faust

September 2008 – June 2012

**BSc Biotechnology– UAB (Spain)**

Training in Biochemistry, Clinical and Environmental Microbiology, (Molecular) Genetics, Cellular/Molecular Biology, Virology, Genomics and Proteomics, Bioinformatics.

Grade: Outstanding (82%)

September 2006 – June 2008

**Baccalaureate in Science and Technology – IES Jaume Callís (Spain)**

Grade: Honours (94%)

## PROFESSIONAL ACADEMIC POSITIONS

October 2019 – February 2023

### Postdoctoral researcher – CIBIO (University of Trento, Italy)

*Project:* “The person-to-person transmission landscape of the oral and gut microbiomes”  
*Group leader:* Prof Dr Nicola Segata

July 2019 – September 2019

### Postdoctoral researcher – KU Leuven-VIB (Belgium)

*Project:* “Transmission of the gut microbiome across multiple familial generations”  
*Group leader:* Prof. Dr Jeroen Raes

## PUBLICATIONS

### First author publications

1. **Valles-Colomer M<sup>\*\*</sup>**, Blanco-Míguez M, Manghi P, Asnicar F, Armanini F, Cumbo F, Huang KD, Manara S, Masetti G, Pinto F, Ricci L, Zolfo M, Farrant O, Goncalves A, Selma-Royo M, Binetti AG, Becerra JE, Han B, Lusingu J, Amuasi J, Amoroso L, Visconti A, Steves CM, Falchi M, Filosi M, Tett A, Last A, Xu Q, Qin N, Qin H, May J, Eibach D, Corrias MV, Ponzoni M, Pasolli E, Spector TD, Domenici E, Collado MC, Segata N<sup>\*\*</sup> (2023). The person-to-person transmission landscape of the gut and oral microbiomes. *Nature*, 614:125-135. doi: 10.1038/s41586-022-05620-1.

## TEACHING EXPERIENCE

May 2022	"Analysis of the human gut microbiome in the gut-brain axis context". Neuroscience School of Advanced Studies (Venice, Italy). <i>Workshop, 4 hours.</i>
April 2022	"Basic-to-Intermediate analyses of shotgun metagenomics data workshop". 3 <sup>rd</sup> World of Microbiome Conference (Vienna, Austria). <i>Workshop, 2 hours.</i>
February – April 2022	Teaching assistant in the course "Computational Microbial Genomics" of the MSC Computational and Quantitative Biology (University of Trento, Italy). <i>Practical course, 12 hour teaching assignment.</i>
February – April 2021	Teaching assistant in the course "Computational Microbial Genomics" of the MSC Computational and Quantitative Biology (University of Trento, Italy). <i>Practical online course, 12 hour teaching assignment.</i>
February 2020	"Shotgun data processing: mapping-based approaches for taxonomic and functional profiling at the species- and strain-level resolution". Metabarcoding and metagenomic data processing and analysis workshop (Naples, Italy). <i>Workshop, 8 hour workshop.</i>
From October 2019	Co-supervision of three PhD students (CIBIO-University of Trento, Italy): Nicolai Karcher, Leonard Dubois, Davide Golzato.
2017-2018	"Topographic variation of the upper gastrointestinal tract microbiota". Co-supervision of Tanine Daryoush's Master Thesis Biomedical Sciences (KU Leuven, Belgium).

## GRANTS AND FUNDING

- Grants**
- EMBO Postdoctoral Fellowship (130.000€) – EU, 2020-2022
  - “Broaden your Horizon” travel grant to attend NSAS Summer school (1.500€) – KU Leuven, Belgium, 2016
  - FWO doctoral grant (1110918N) (129.500€ including 3.720€/year of bench fee) – Belgium, 2015-2019
  - Merit scholarship based on academic results (10.000€) – VUB, Belgium, 2012-2014
  - Student-research assistant scholarship (3.000€) - Spanish Ministry of Education, 2011-2012
  - University scholarship for highly promising students (2.000€) – Spanish Ministry of Education, 2008-2012

## INVITED CONFERENCES AND TALKS

- October 2022** 7<sup>th</sup> International Conference on Clinical Metagenomics, Geneva, Switzerland. Invited oral presentation. *Variation and transmission of the human gut microbiota across multiple familial generations.*
- September 2022** 9<sup>th</sup> SIBE Congress, Ancona, Italy. Invited oral presentation. *Person-to-person transmission of the human microbiome.*
- July 2022** Barcelona Debates on the Human Microbiome 2022, Barcelona, Spain. Invited oral presentation. *Person-to-person transmission of the gut and oral microbiomes.*
- April 2022** 3<sup>rd</sup> World of Microbiome Conference, Vienna, Austria. Invited oral presentation. *Transmission of the oral microbiome.*
- April 2022** Pharmabiotics 2022 Conference, Lyon, France. Invited oral presentation. *Genomic diversity and ecology of human-associated Akkermansia species in the gut microbiome.*
- March 2022** New ideas in microbiome research conference, Australasian Human Microbiome Research Network, *online*. Invited oral presentation. *Vertical and horizontal transmission of the human microbiomes.*
- July 2021** African Society for Bioinformatics and Computational Biology webinar, *online*. Invited oral presentation. *The neuroactive potential of the human gut microbiota in quality of life and depression.*
- June 2021** 8<sup>th</sup> International Human Microbiome Consortium Congress, *online*. Invited oral presentation. *The human gut microbiota in quality of life and depression.*
- December 2020** World Microbiome, Neurodevelopment and Behavior Congress, *online*. Invited oral presentation. *The neuroactive potential of the human gut microbiota.*
- May 2019** National Gastroenterology Meeting, Jönköping, Sweden. Invited oral presentation. *Analysis of the gut microbiome in health and gastrointestinal disease.*

## SELECTED CONFERENCES AND TALKS

- January 2022** 5<sup>th</sup> Microbial Virtual International Forum, *online*. Selected Research Highlight. *Variation and transmission of the human gut microbiota across multiple familial generations.* Best Research Highlight award.

- September 2018 EMBO/EMBL Symposium The Human Microbiome, Heidelberg, Germany. Selected oral presentation. *Neuroactive potential of the human gut microbiota: a framework for gut-brain axis annotation from metagenomic data.*
- July 2017 FEMS Congress, Valencia, Spain. Selected oral presentation. *A framework for gut-brain axis annotation from metagenomic data.*
- September 2016 NSAS Microbiota and Brain Summer school, Bressanone, Italy. Poster presentation. *Population-level association of microbiota composition with quality of life and depression.*
- September 2015 Methods in Epidemiology Symposium, Leuven, Belgium. Poster presentation. *Population-level association of microbiota composition with wellbeing parameters.*

## TECHNOLOGY TRANSFER

“A new inflammation-associated, low cell count enterotype”. Jeroen Raes, Severine Vermeire, Sara Vieira-Silva, Gwen Falony, **Mireia Valles-Colomer**, Lindsay Devolder, Joao Guedelha Sabino, Gunter Kathagen, Marie D’hooghe, Jacques De Keyser. European Patent Office, EP 17207770.3.

## AWARDS

Best Research Highlight talk for “*Variation and transmission of the human gut microbiota across multiple familial generations*” (200\$) – Microbiome Virtual International Forum, online, January 2022. F1000Prime recommendation of [Valles-Colomer M et al., Nat Microbiol 2019 4(4):623-632]. Yu J and Park H, 25/02/2019, Classified as: New Finding, Novel Drug Target, Good for Teaching; 10.3410/f.734997864.79355662.

2017 Best clinical article award [Vandeputte D et al., Nature 551:507–511]. Belgian Society of Internal Medicine.

Young scientist award on the project “Genetic alterations in Chronic Mieloid Leukemia” (1.000€) – FUB, Spain, 2008
